# Goran Ljiljak

A Data Engineer with 2+ years of experience designing data solutions using Power BI, Google Cloud Platform, and Apache Airflow, leveraging prior SAP Consultant expertise to align technical and business goals. Proficient in SQL, Python, and fluent in German and English, I excel at transforming data into actionable insights.

DATA ENGINEER
GORILLA SPORTS JUN 2023 - PRESENT

- Designed and implemented data solutions using Power BI Desktop and Service, leveraging PowerQuery for data transformation.
- Utilized Python and SQL for data analysis and workflow automation.
- Worked with Google Cloud Platform, including BigQuery, to manage and analyze large datasets.

DATA ENGINEER / POWER BI DEVELOPER
REMADE DOO SEP 2022 - JUN 2023

- Developed and managed data solutions using Power BI Desktop and Service, leveraging PowerQuery for data transformation.
- Utilized Power Platform to create automated workflows and enhance business processes.
- Executed complex SQL queries to support data analysis and reporting.

SAP SUPPORT CONSULTANT
REMADE DOO OCT 2020 - SEP 2022

- Provided 1st and 2nd level support for SAP Business One, ensuring system reliability and user assistance.
- Managed SAP HANA databases, executed SQL queries, and facilitated third-party add-on integrations.
- Led the installation and rollout of new SAP instances, ensuring seamless implementation and functionality.

DATA ANALYST
NEW PLANT DOO JUN 2015 - OCT 2020

- Managed SAP data administration and performed SQL queries in SAP Business One to support business operations.
- Generated periodic sales reports, conducted inventory analysis, and prepared procurement demand reports to aid decision-making.
- Utilized advanced skills in MS Excel and Google Sheets for data analysis and reporting.
